

DEPARTMENT OF ORAL MEDICINE AND RADIOLOGY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Demonstration of taking radiographs, processing and interpretation, clinical patient examination and vital sign recording, different types of biopsy, TENS, Vital staining, intralesional biopsy.
2. Integrated/interdisciplinary learning	Interdepartmental meets, Conferences, CDE programs
3. Participatory learning	Group discussions, quiz, Case discussions
4. Problem Solving Methodologies	Case discussions
5. Self-Directed Learning	Seminars, Journal clubs
6. Patient Centric, Evidence-Based Learning	Demonstrations of patient examination and vital sign recording, use of patient management software and software of digital Radiographic procedures on patients and radiographic equipment demonstrations
7. Learning In Humanities	Camps, Community service, Posting in Covid care centres, Vaccination drive
8. Project-Based Learning	PG conferences, Paper and poster presentation, Assignments, Dissertations

Our department is the first interface of patient interaction, we train our students to develop good rapport and a holistic approach towards the patient by adopting the above-mentioned educational methods. Students obtain self-directed, participatory learning and project-based learning through seminars, Journal clubs, dissertations, Conferences, CDE programs and Interdepartmental discussions. The students also conduct awareness programs, and enhance their soft skills by attending various camps.

[Handwritten Signature]
24 Head of Department

DEPT OF ORAL MEDICINE & RADIOLOGY

DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Extraction, local anaesthesia blocks, suturing techniques, interdental wiring
2. Integrated/interdisciplinary learning	Interdepartmental discussions, interdepartmental case presentations and seminars
3. Participatory learning	Case Discussions, group discussions.
4. Problem Solving Methodologies	Case history discussions, interdepartmental case presentations
5. Self-Directed Learning	Seminar and journal clubs, research work
6. Patient Centric, Evidence-Based Learning	TMJ examination, lymph node examination, case history evaluation, Extraction, local anaesthesia blocks, suturing, interdental wiring, infection control – painting and draping
7. Learning In Humanities	Screening camps
8. Project-Based Learning	PG conferences, poster and paper presentation

The department of oral and maxillofacial surgery is equipped with all major and minor equipment and instruments to enable best learning facilities to both undergraduate and post graduate students. A variety of measures are undertaken to improve student learning and skills development. The department consists of spacious seminar hall for presentations, case discussions journal clubs and interdepartmental meetings etc. The department also possesses separate ug and pg clinic area. A minor OT and implantology clinic is present in the department for operating minor surgical cases. Educational boards are put up throughout the ug/pg sections to help stimulate learning. Healthy discussions on various research articles are carried out to enhance student's knowledge. A separate room for sterilization exists for better infection control. The students are encouraged to present paper and posters in national conferences and PG conventions. Students are also encouraged to participate in research and publish the scientific articles.

Dept. of Oral & Maxillofacial Surgery
Dayananda Sagar College of Dental
Sciences and Hospital
Bangalore-560 078.

DEPARTMENT OF CONSERVATIVE AND ENDODONTICS

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1.Experiential learning	Pre-clinical cavity preparation and restorations on Typhodonts and natural teeth
2.Integrated/interdisciplinary learning	Interdepartmental meets, Conferences, CDE programs
3. Participatory learning	Group discussions, quiz, Case discussions
4.Problem Solving Methodologies	Case discussions
5.Self-Directed Learning	Seminars, Journal clubs
6.Patient Centric, Evidence-Based Learning	Demonstrations of restorative dentistry and endodontic procedures on patients and equipment demonstrations
7.Learning in Humanities	Camps, Community service, Posting in Covid care centres, Vaccination drive
8. Project-Based Learning	PG conferences, Paper and poster presentation, Assignments, Dissertations

The department inculcates all the above said learning methods using various clinical skill models. Students obtain self-directed, participatory learning and project-based learning through seminars, Journal clubs, dissertations, Conferences, CDE programs and Interdepartmental discussions. The pre-clinical procedures performed enhances their experience to treat the patients more confidently. The students also conduct awareness programs, and enhance their soft & clinical skills by attending various camps.

I. P. Karanth. B.
Head Of Department
Department Of Conservative Dentistry
Dayananda Sagar College Of Dental Sciences
Bengaluru-78

DEPARTMENT OF PROSTHODONTICS
LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Pre-clinical – Teeth Arrangement and tooth preparation on typhodonts
2. Integrated/interdisciplinary learning	Interdepartmental seminars, conferences, CDE program
3. Participatory learning	Group discussion, Case Discussions
4. Problem Solving Methodologies	Case discussions, interdepartmental case presentations
5. Self-Directed Learning	Seminars, journal clubs
6. Patient Centric, Evidence-Based Learning	Demonstration of all prosthetic replacement procedures on patients and knowledge and skills to use instruments and equipment's.
7. Learning In Humanities	Denture camps, old age homes, geriatric care
8. Project-Based Learning	PG conferences, paper and poster presentation, UG research projects

The department furnishes all the above said methods of learning using various clinical skill models. Students gain self-directed, participatory learning and project-based learning through seminars, Journal clubs, dissertations, Conferences, CDE programs and Interdepartmental discussions. The pre-clinical procedures performed help the students to gain confidence through their experience to treat the patients more confidently. The students also conduct awareness programs, and enhance their soft & clinical skills by attending various denture camps. The department also conducts outreach programs to old age homes, free denture camps and regular school visits for prosthetic dental treatments.

Professor & HOD
Dept. of Prosthodontics & Crown And Bridge
Dayananda Sagar College of Dental Sciences
And Hospital
Bengaluru-560 078.

DEPARTMENT OF PERIODONTICS
LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Preclinical exercises – performing scaling procedures on stone cast and typhodont. Preclinical suturing practice on suturing pillows and typhodont teeth. Performing scaling and root planning on patients
2. Integrated/Interdisciplinary Learning	Interdepartmental seminars, Conferences, CDE programs, workshops, professional enrichment programs.
3. Participatory Learning	Group discussions, quiz, Case discussions
4. Problem Solving Methodologies	Providing case scenarios to arrive at diagnosis and treatment plan through Case discussions and chairside viva
5. Self-Directed Learning	Seminars for UGs and PGs Journal clubs and special case presentations
6. Patient Centric, Evidence-Based Learning	Demonstrations of Scaling and root planing on patients and other soft tissue surgical procedures. Demonstration of usage of LASER and microsurgical loupes
7. Learning In Humanities	Camps, Community service, Posting in Covid care centres, Vaccination drive
8. Project-Based Learning	PG conferences, Paper and poster presentation, Assignments, Dissertations and short study

The department inculcates all the above learning methods using different models of clinical skills. Students acquire self-directed and project-based learning through seminars, journal clubs, dissertations, conferences, CDE programs, and interdepartmental discussions. The preclinical procedures increase the student's experience and thus help to treat patients more experientially. Students also participate in outreach programs and improve their soft & clinical skills by participating in various camps.

PROFESSOR & HOD
Dept. of Periodontics
Dayananda Sagar College of Dental
Sciences and Hospital
Bangalore-560 078

DEPARTMENT OF PEDODONTICS AND PREVENTIVE DENTISTRY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Preclinical – carving, typhodont exercises, cavity preparation on extracted tooth and soft skills
2. Integrated/interdisciplinary learning	Interdepartmental seminars
3. Participatory learning	Discussions and debates
4. Problem Solving Methodologies	Case history, interdepartmental case presentations
5. Self-Directed Learning	Seminars
6. Patient Centric, Evidence-Based Learning	Local anaesthesia Demonstration TMJ examination, Suturing techniques, Cavity preparation and pulp therapy on extracted
7. Learning in Humanities	Outreach programmes/ camps
8. Project-Based Learning	UG conferences, poster and teaser presentation
10. Role Play	Skits and short films

Student centered learning environment is provided in Department of Pedodontics by giving students seminar topics to present and encourages their skills and promotes self-directed learning.

Department also aims to be knowledge centred by following “tell and show” methodology by teaching and also showing the study models to the students for the better understanding of the topics. This also helps educating the peer group as they tend to listen to batch mates more seriously.

Department regularly organises camps and health education programs for being community centred which is carried out by the students for better hands-on training

Department is well equipped with 16 dental chairs and an X-ray unit.

Students are trained for clinical management of patients.

Audio Visual aid for health education for the patients and their guardians to watch while waiting.

Department staffs are assessment centred by regularly giving out assignments followed by tests/quiz to track the progress of the students

Head of Department Paedodontics
Dayananda Sagar College of Dental Sciences
BANGALORE - 78.

DEPARTMENT OF ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Preclinical wire bending exercises, Typhodont exercises, cephalometric tracing
2. Integrated/interdisciplinary learning	Interdepartmental discussions
3. Participatory learning	Case Discussions
4. Problem Solving Methodologies	Case history discussions, interdepartmental case presentations, mechanics application on models
5. Self-Directed Learning	Seminar and journal clubs
6. Patient Centric, Evidence-Based Learning	TMJ examination, bonding and treatment, treatment of various malocclusions, retention
7. Learning In Humanities	Screening camps
8. Project-Based Learning	PG conferences, poster and paper presentation

The department of orthodontics and dentofacial orthopaedics has been instrumental since inception in providing the best of facilities to both undergraduate and post graduate students. A variety of measures are undertaken to improve student learning and skills development. A spacious seminar hall for presentations, case discussions journal clubs etc is provided. Separate tracing area to practise cephalometric patient tracing is available. A photography room is allotted for patient pre and post treatment monitoring. Separate UG and PG laboratories are provided which give ample space for students to practise as per clinical exercises. Educational boards are put up throughout the ug/pg sections to help stimulate learning. Discussions on various scientific articles are carried out. Interdepartmental case and topic discussions are regularly conducted for the benefit of students. Typhodonts and tooth models are provided to learn various bonding techniques and treatment mechanics. Autoclaves, dry and wet labs etc are provided to the students. Screening camps and awareness programmes are conducted regularly. The students are encouraging to present papers and posters in national conferences and pg conventions. Students are also encouraged to participate in research activities sponsored by RGUHS, ICMR, etc and are also guided to publish these as articles.

PROFESSOR & HOD
Dept. of Orthodontics & Dento Facial Orthopedics
Dayananda Sagar College of
Sciences and Hospital
Bangalore-560 078.

DEPARTMENT OF PUBLIC HEALTH DENTISTRY

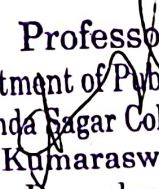

LEARNING ENVIRONMENTAL FACILITIES

Sl No	Student Centric Teaching Method Used for Enhancing Learning Experiences	METHODS FOLLOWED
1	Experiential Learning	Clinical Skills: UG (4th BDS)- The students are given demonstration of application of pit and fissure sealants and topical fluoride application before they carry out the procedures on patients. PFS application is done on extracted teeth before carrying out on patients. UG (Interns)- The interns perform simple extractions, restorations and scaling procedures in the department, outreach programs and satellite centres. The patients referred from satellite centres are treated in the department to enhance the clinical skills of the interns and PG students. PG- The PG students perform extractions, restorations, scaling and RCT procedures in satellite centres and the department. The PG students are enrolled in implant workshops.
2	Integrated/ Interdisciplinary learning	The PG students have interdepartmental seminars with Department of Orthodontics, Periodontics and Oral Medicine to enlighten them about different aspects on the particular topics. The PG students from both the departments given presentations on the chosen topics. The students also attend interdisciplinary CDE programs.
3	Participatory learning	UG- Discussions are taken for 4 th BDS students on topics related to practicals and theory. Group discussions and one on one discussions for slow and fast learners are done. PG- Discussions on topics related to practicals and theory are held for PG students.
4	Problem solving methodologies	The PG students are given problem solving exercises/ scenarios to draw planning protocol on how to solve the problems given in the scenarios and utilization of resources.
5	Self directed learning	UG- Third BDS students present seminars on different topics and they are also taught about research.

		PG- The PG students present seminars and journalclubs regularly according to the DCI curriculum.
6	Learning in humanities	The UG and PG students go for outreach programs for the welfare of general population and special groups where they understand the needs of the population and address them.
7	Project based learning	The PG students attend conferences and CDE programs regularly. The UG students are taught how to plan research programs and develop questionnaires for different survey topics. They also learn how to organise camps in their internship. They participate in competitions during World No Tobacco day.

The department inculcates all the above said learning methods. The students are trained in self-directed, participatory learning and project-based learning through seminars, journal clubs, dissertations, conferences, CDE programs and interdepartmental discussions. The students also conduct awareness programs and enhance their clinical skills by attending various camps and outreach programs. Undergraduate and post graduate students are posted to satellite centres where they enhance their communication and clinical skills. The students have to receive the patients, plan their treatment and convince the patients to get the treatment done. This makes them self-sufficient in setting up their private practice. The interns communicate with the patients referred from satellite centres in the college and follow-up the entire treatment process.

Kumaraswamy Layout,
Bangalore - 560 078

DEPARTMENT OF ORAL PATHOLOGY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential Learning	Tooth carving on wax block
2. Integrated/Interdisciplinary Learning	Interdepartmental seminars with Department of Oral surgery, Oral medicine, Periodontics etc
3. Participatory Learning	Group discussions
4. Problem Solving Methodologies	interdepartmental case presentations etc
5. Self-Directed Learning	UG seminars
6. Learning In Humanities	Outreach camps etc
7. Project-Based Learning	UG/PG conferences, poster presentation

Dental wax carving exercise is a practical exercise to teach tooth morphology that develops psychomotor skills needed to practice clinical dentistry. It is an integral component of preclinical dental curriculum so that clinically relevant cognitive & psychomotor skills are incorporated with sufficient knowledge of tooth morphology the dentist has the foundations for the diagnosis and management of most disorders like any developmental disturbances concerned with morphology of tooth like taurodontism, dens in dente, peg laterals, germination, fusion, supernumerary roots or mispositioning. Students are given seminar topics which will help them get more information about the topic. Students are encouraged to attend UG conference and present paper, poster so that they will understand the current research being conducted in the field. Camps are conducted from our department in association with oral pathology society to create awareness about oral cancer, so that students have practical exposure along with theory knowledge.

Head of Department
Department Of Oral Pathology,
Dental Anatomy, Oral Histology
Dayananda Sagar College Of Dental Sciences
Bangalore-78

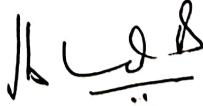

Department: Basic science

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Pre-clinical activities like diagnosis & interpretation of infectious diseases
2. Integrated/interdisciplinary learning	Interdepartmental meets, Conferences
3. Participatory learning	Group discussions, quiz, Case discussions
4. Problem Solving Methodologies	Case discussions
5. Self-Directed Learning	Seminars
6. Patient Centric, Evidence-Based Learning	Clinical samples from patients for diagnosis and identification of pathogens
7. Learning In Humanities	Patient sample collection for Covid care centres, Vaccination drive, phlebotomy
8. Project-Based Learning	Research publications, articles and poster presentation, Assignments, Dissertations

The departments inculcate all the above said learning methods using various clinical skill models. Students obtain self-directed, participatory learning and project-based learning through seminars, Journal clubs, dissertations, research articles, Conferences and Interdepartmental discussions. The pre-clinical diagnosis performed enhances their experience to identify the pathogens & treat the patients more confidently. The students also conduct awareness programs, and enhance their soft skills by attending various camps.

POLICY DOCUMENT

SOFT SKILLS DEVELOPMENT PROGRAM FOR STUDENTS

Skills & Soft Skills:

A skill is the ability to make use of one's knowledge readily and effectively. Skills can be learned and are essential in the everyday function of individuals as well as organizations.

Soft or social skills are those personal values and interpersonal skills that determine a person's ability to fit in a particular structure such as a team or even an organization. By definition, soft skills are defined as personal qualities, attributes or the level of commitment of an individual that sets him apart from other individuals who may have similar skills and experience.

Soft skills in a healthcare setting is a sociological term relating to a person's "EQ" (Emotional Quotient), the cluster of personality traits, social graces, communication, language, personal habits, friendliness and optimism that characterize relationships of clinicians, researchers, academics with their patients, subjects & students respectively. Soft skills complement hard skills (part of a person's IQ), which are the occupational requirements of every dentists job and many other activities.

Need for a Soft Skills training Program:

Dental education has been bereft of these teachings which taught such skills for overall growth of all practitioners, hence the need to highlight them for our own betterment. Soft skills are also personal attributes that enhance an individual's interactions, job performance and career prospects in the life of every clinician, a dentist in this context. Unlike hard skills, which are about a person's skill set and ability to perform a certain type of task or activity, soft skills are interpersonal and broadly applicable.

A dentist's soft skill EQ is an important part of their individual contribution to the success of their practices. Particularly smart practitioners dealing with patients face to-face are generally more successful, if they train their staff to use these skills. Screening or training for personal habits or traits such as dependability and conscientiousness can yield significant return on investment for their clinics. For this reason, soft skills are increasingly sought out by dentists in addition to standard qualifications.

PRINCIPAL
Dayananda Sagar College of Dental Sciences
Kumaraswamy Layout,
Bangalore - 560 078.

Scanned By Camera Scanner

The Objectives of a Soft Skills development program:

Broadly, this can be categorized as under:

- i. To build and maintain interpersonal relationships.
- ii. To make meaningful/appropriate decisions
- iii. Efficient Communication
- iv. To influence the professional development
- v. For effective, efficient and higher performance

Model for implementing soft skills development in Dental Education:

The modules can be customized as required for different levels that a student might be in, during the course of BDS & MDS. Broadly, the initial 2 years (comprising of I & II BDS) and the latter 4 years comprising of (III, IV, Internship & Post-Graduate years) can be grouped together for purposes of ease of managing students and their needs at these critical junctures. The 3rd year of BDS signals the entry of a dental student into clinics where he/she would be exposed to a live patient for the first time ever and this requires additional support and training from the skills team as compared to the initial 2yrs wherein the student would need to be helped to settle down more into the course properly.

Accordingly some of the topics that might be included in the first couple of years may be as under:

1. Goal Setting
 - Establishing SMART Goals
 - Importance of Mission Statement
 - Formulation of Goals
 - Procrastination
 - Visualization of Goals
2. Time Management
 - Prioritization
 - Dealing with Difficult Tasks
 - Getting Organized
 - How to get away from Distractions
 - Work-Life Balance
3. Building Confidence
 - Overcoming Nervousness
 - Deal with Conflicts Effectively
 - Developing Positive Attitude
 - Increase Public Speaking Skills
 - Reach your Personal and Professional Goals
 - Strengthening your Self-Esteem
 - Developing Social Skills
4. Communication Skills
 - Verbal & Non-Verbal
 - Manage tone of language
 - Listening Skills & Writing Skills
 - Group Discussion
5. Business Etiquette
 - Making the First Impression
 - Corporate environment Etiquette
 - Grooming and Personal Hygiene
 - Body Language
6. Building Aptitude for Exams

7. Interpersonal and Team Skills

- Initiating Small Talks
- Establishing Trust
- Managing Relationships
- Acclimatize to Others
- Understanding the Cultural Diversity
- Team-building Process and Techniques
- Coordination in Teams
- Assertive Communication while Dealing with Team
- Balancing Team Needs and Individual Needs
- Importance of Feedback in Team Building

8. Emotional Quotient

9. Presentation Skills

- Fundamentals of an Effective Presentation
- 5 P's of an Effective Presentation
- Importance of Visual Aids
- Understanding and Overcoming Fear
- Public Speaking
- Importance of Managing Voice and Language
- Managing Question and Answer Session

The modules that may be more relevant for the student once he/she enters clinics in 3rd BDS and starts interacting with patients signals a new need and requirement for the student which can be managed with the below listed methods:

10. Stress Management Skills

- Types of Stress
- Sources of Stress
- Symptoms of Stress
- Stress in the Workplace
- Four Skills for Managing Stress

11. Conflict Management

- Creating a Win-Win situation
- Negotiation and Persuasion
- Dealing with Aggressive Behaviour
- Different Styles of Handling Conflicts
- Dealing with Emotions
- Conflict Resolution Strategies
- Tools and Techniques for Conflict Management

12. Leadership Skills

- Defined Vision
- Clear Planning
- Excellent communication skills
- Excellent interpersonal skills
- Power
- Understanding Risk and Mitigating promptly
- Innovation and Creation
- Adaptability
- Negotiation skills
- Decision making
- Managing the Self and the Team

13. Critical thinking

- Understand the working functions of thought process inside human brain
- Learn about developing critical, analytical and creative thinking
- Learn techniques to invoke result oriented thought process
- Become more critical, analytical, creative thinker and apply them to find best fit solutions for situation at hand
- Examine the obstacles towards making your organization a great organization
- Understand psychology behind employee hesitation
- Learn to empower
- Learn to shape right attitude
- Learn to become a factory of Ideas
- Learn to develop right work environment and culture

14. Entrepreneurial skills

PRINCIPAL
Dayananda Sagar College of Dental Sciences
Kumaraswamy Layout,
Bangalore - 560 078.

Learning-Training methods:

The various methods that can be incorporated in the training program can be listed as under:

- | | |
|------------------------------|---------------------------------------------------|
| i. Lectures | ix. Role Play |
| ii. Clinical simulations | x. Simulation |
| iii. Problem based learnings | xi. Use of Video/ Slideshows / Films / Animations |
| iv. Roleplays | xii. Demonstrations |
| v. Lecture | xiii. Field Visits |
| vi. Practice | xiv. Innovative methods |
| vii. Small Group Discussion | xv. Pictures/Posters |
| viii. Case Study | xvi. Team games |

Role of the Trainer (CIL Trainers):

A Soft Skills Trainer provides targeted training to individuals to help them strengthen their interpersonal skills. While many people are brilliant at their jobs, some fall short in the area of soft skills, which are a key component in successful working relationships. Soft Skills Trainers provide support for people who struggle with or lack interpersonal communication skills. They achieve this by teaching helpful strategies as well as providing various role-playing activities that allow the participants to realize their shortcomings and take action to correct them.

Duties and responsibilities of the Soft Skill Training Team:

Some common duties & responsibilities include:

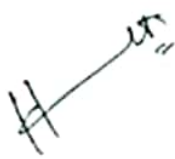

- Selecting or creating appropriate learning materials for instructional purposes
- Monitoring the effectiveness of training materials
- Assessing the weaknesses and strengths of individuals and adjusting training as needed
- Performing administrative tasks such as scheduling, coordinating and billing

Soft Skills Trainer Skills

The ability to teach others, exercise leadership, negotiate and work with people from diverse backgrounds are some of the most important skills a Soft Skills Trainer will need to be able to do. In addition, an understanding of conflict resolution and the ability to teach strategies related to it are key. Social perceptiveness is also helpful because it will allow the trainer to understand the motivation or lack of motivation of specific individuals and use the information to encourage the development of interpersonal skills.

Other key Soft Skills Trainer skill areas include:

- Analytical skills
- Decision-making skills
- Interpersonal skills
- Public speaking skills

Assessment pattern to be followed:

An independent assessment will be conducted after each program. The results of each of these assessments will help the committee formulate a dynamic, policy driven program with the ultimate goal of beings useful to the student community at large.

Expected Learning outcomes:

In addition to the academic and clinical skills every student acquires during their stint as dental students, they will also develop social & work life skills, as well as their personal & emotional well-being, including resilience, teamwork, communication, leadership, communication, emotional maturity & health, confidence, enthusiasm for learning, responsibility & employability skills.

In general, acquiring relevant chairside interpersonal skills is necessary so that dental students can organize, plan, and manage their vast learning experiences and deal with different situations during clinical encounters. The ability to respond to the patient's needs and meeting their expectations satisfactorily will strengthen students from within, and this makes a good predictor of academic success within the undergraduate dental curriculum and beyond.

Term of the Soft Skills committee members:

The term of the committee members would be for 3 years.

Meetings of Committee:

Six meetings will be held each year. All meetings will involve participation of all the committee members. The meetings will be done in a conducive environment and with adequate privacy and will be a planned & organized one.

Soft Skills Program outline:

1. Regular and continuous Soft Skills development programs will be held
2. The programs will be conducted in a planned & and organized manner.
3. Discussion points will be documented and a summary report will be prepared. In case of confusions and/or need for clarifications one will bring the issues to the notice of the Coordinator.
4. The summary report of every meeting & program will be documented & submitted to the Coordinator within a week.
5. Once in two months committee meetings will be held. These reports of these meetings will be submitted to the Chairperson.

Summary Report:First Workshop on Soft Skills Development for I BDS Students of DSCDS.

Venue: 4th Floor CIL, CD Sagar Building

Timing: 9:30am – 3:30pm

Date: 9/5/19

The first module of the Soft Skills development program was held under the guidance and chairmanship of our Principal Dr. Hemanth.M for the I BDS students of Dayananda Sagar College of Dental Sciences on 9th May 2019.

It was conducted in association with the Centre for Innovation & leadership (CIL), a part of Dayananda Sagar Institutions (DSI). It was a day long workshop for which the resource person was Mr. Mohammad Irfan, a well experienced corporate trainer who was brought in by CIL.

The first module was on "Personal Effectiveness". It was a great learning experience for our young students who thoroughly enjoyed the workshop. It was ingrained into them that while technical skills may get our foot in the door, it is our people skills that open most of the doors to come. Goal setting, self-motivation, time management, confidence building, attitude development and a whole host of other personal attributes that are crucial for career success were touched upon and dealt with in a very interesting and effective way. The students were made to understand that with these soft skills they could excel as leaders. The basic idea of this first module was to get students to get to know each other and get to know how to get along with each other, all while displaying a positive attitude & outlook.

Report on the webinar series on soft skills

The soft skills development committee of Dayananda Sagar College of Dental Sciences, Bengaluru conducted a webinar series titled "A Holistic approach to life during the COVID pandemic" from the 10th of July 2020 to 15th of July 2020. It consisted of a web series of 6 presentations by various well known and established speakers from the Heartfulness foundation. The speakers gave insight to various life skill topics which are required in these times.

The topics included

1. Developing alternate life skills for personal well being
2. Goal setting and remaining focused on goals during these uncertain times
3. Trusting Oneself
4. Building confidence
5. Practicing a healthy lifestyle to counter the impact of COVID 19
6. Stress free living- coping with loneliness, anxiety and depression

The 6 day webinar series saw an average of 350 participants each day and over 900 registrations overall. The registrations included dental faculty and students pan India. The sessions were followed by practical training of the use of heartfulness meditation for 20 minutes everyday. The participants were taught and encouraged to use these meditation techniques. Overall the program was beneficial to a large

SOFTSKILLS PROGRAM FOR 1ST BDS STUDENTS

SOFTSKILLS PROGRAM FOR 1 ST BDS STUDENTS 2022		
Sl.No	Event Particulars	Detail s
1.	Date	06 th August 2022
2.	Venue	CIL LAB, Dayananda Sagar College of Engineering, Bangalore
3.	Time	9:15am onwards
4.	Chief Guest	Mr. Mohamad Irfan R
5.	Other Dignitaries Present	Dr. Hemanth M, Principal
6.	Pictures	Attached as Annexure – I
7.	Remarks	<p>A soft skill interactive program was conducted on 6th August 2022 at CIL lab , Dayananda Sagar College of Engineering, Bangalore . The program was held for the 1st BDS student to introduce the concept of soft skills and the essence and importance of these qualities in their professional as well as personal life.</p> <p>Dr. Ranjini introduced the guest speaker, Mr. Md. Irfan R who is an entrepreneur, an author, and an anchor. The speaker had organized his session in such a remarkable way which insured the attention of all the students throughout the session. The students actively participated in all the group activities and their enthusiasm would not have been possible without the dynamic speaker. The speaker even handed out copies of his books to student who volunteered to participate in few group activities.</p> <p>The speaker enlightened the students on how soft skill needs to be inculcated in our daily practice as we, being dentists are interacting with another human being and not with machines. This profession needs not just a mere treatment of the teeth, rather a treatment which helps one bond with the patients and assure them that they would be in capable hands. The students were given guidance on how one can improve their communication skill which again is an art by itself.</p> <p>Mr Irfan managed to developed a rapport with each of the student by the end of the session. The programmed was also graced by the Principal of Dayananda Sagar College of Dental Scienes, Banglore, DR. Hemanth M. Sir addressed the students and shared his own experience of how the communication skill and those that bridge the gap between the doctor and</p>

		<p>patients. Certificated to all the student were distributed and ended the program with a vote of thanks by Dr Preethi. The soft skill committee would like to express our sincere gratitude to Mrs Praveena for orchestrating such a remarkable skill development program.</p>
