COMPREHENSIVE IMPLANT WORKSHOP 2025

INTRODUCTION

Dayananda Sagar College of Dental Sciences recognizes the need for our students and faculty to periodically upgrade their skills. One such area is in the field of Dental implants. The institution will be conducting a comprehensive implant workshop every year, for our students. This will be a multisystem Implant course conducted by the college and is a comprehensive course for the participant wishing to have an implant practice. It is a requirement for the practicing Dental surgeon to have a specific training in the field, to have a thorough knowledge and to develop a promising career in the field of Implant dentistry. Participants will be given a one to one training with live surgical demonstrations as well as a hands-on clinical experience to treat their own patients under supervision.

GOALS

The goal of this program is to make our faculty and students competent in the field of Dental Implantology and periodically upgrade their skills and knowledge in this advancing field.

OBJECTIVES

The comprehensive implant workshop is designed to offer the participants a systematic learning approach to Implant dentistry by taking learners through a basic step-by- step learning experience right from didactic lectures to actual surgical placement & prosthetic rehabilitation procedures at Dayananda Sagar College of Dental Sciences under one to one guidance.

Upon completion of this course, the participants should be able to know –

1. The basic principles & clinical sciences of implantology.
2. Have thorough knowledge of the anatomy, clinical & radiographic diagnosis, treatment planning.
3. Basic & advanced surgical protocol with a satisfactory degree of skill and confidence to practice standard implant placement.
4. Basic prosthetic management.
5. Maintenance phase in implantology.
6. Practical tips on how to avoid common mistakes and complications in Oral Implantology
