**Oral Hygiene Day is celebrated every year on 1st August to mark the birth anniversary of Dr. G.B. Shankwalkar, a pioneer in Indian Periodontics and the founder of the Indian Society of Periodontology (ISP). This day is dedicated to honouring his contributions to the field of dentistry and to spreading awareness about the importance of maintaining good oral hygiene. The main objective is to promote oral health education among the public and to combat the growing issue of oral neglect, which remains a major cause of dental diseases in India. By encouraging preventive care and regular dental check-ups, the observance aims to foster healthier habits and reduce the burden of oral health problems.**
